WATER MITIGATION MOLD REMEDIATION BIOHAZARD & HOARDING DUCT CLEANING SMOKE AND ODOR REMOVAL

STOP Restoration is a Veteran and Minority Owned Business that provides restoration services to residential and commercial buildings. These services include: Mold Remediation, Water Mitigation, Duct Cleaning, Smoke and Odor Removal, and Fire Cleanup.

STOP Restoration is proud to boast a "Restoration done right the first time" mindset that allows us to build meaningful client relationships and business connections throughout DFW and surrounding areas.

What sets us apart from our competitors:

- A personal approach with our clients that helps them rest easy knowing that we care.
- The guarantee that the work will be done right the first time so that our clients know that they are in capable hands.
- A team of professionals that are trained and licensed in Mold Remediation and will follow all the necessary state-mandated regulations.

Core Capabilities:

Water Mitigation
Mold Remediation
Biohazard and Hoarding Removal
Duct Cleaning Smoke and Odor Removal
Fire Cleanup
Rebuild and Construction Management

Water Mitigation:

If you have an emergency or just need some help drying your building, our team will give you the quick, respectful, and professional assistance you need to get life back to normal, restoring your property back to pre-loss condition.

Mold Remediation:

STOP Restoration located in Crowley/Fort Worth, Texas is properly trained and licensed by the State of Texas to remove and remediate mold contamination in your commercial, government, or residential property.

Biohazard, Hoarding Removal Services & Duct Cleaning:

We offer biohazard and hoarding removal services which allows our clients and their employees to avoid exposure to potentially harmful contaminants. We also provide duct cleaning to allow our clients and employees to breathe easy, knowing that the air in their building is cleaner and contains less dust and other potentially harmful contaminants.

Smoke and Odor Removal:

At STOP Restoration, our technicians are Institute of Inspection Cleaning and Restoration Certification (IICRC)-trained in smoke deodorization and employ innovative and proven methods to break up smoke molecules and make your property odor free.

Fire Cleanup:

Assisting with insurance, mitigating damage, eliminating smoke and soot, repairing salvageable structures, and evaluating all aspects of your building and contents, we proceed with purpose and speed.

Accreditations, Certifications, and Awards:

Texas Licensed Mold Remediation Company
1 of 59 recipients chosen by the International Franchise Association (IFA) Franchise of the Year
which consists of 12,000 members,
Angi's service award recipient for 5 years in a row
